

01 · FINANCE BACKGROUND

An unpaid invoice can become liquidity today.

A business can sell a Receivable at a discount. CloakRFQ lets invited Funders compete privately to purchase it on Canton.

02 · THE PROBLEM

Top 3 Problems CloakRFQ Solves

01

**Sensitive financial
information is overshared.**

Customer identity · Invoice terms · Bids

02

**Private competition
usually requires an
operator who sees every
quote.**

Every quote · Every bidder · One privileged book

03

**Compliance, funding,
settlement, and audit are
fragmented.**

Compliance · Funding · Settlement · Audit

03 · WHY CANTON

Shared outcome. No full marketplace view.

Private Receivable-financing RFQs require selective disclosure, role-based authorization, coordinated settlement, and auditability without exposing the full marketplace.
